SHENZHEN PHOTONICS VALLEY

MDMS-6 Series

Key Features

- Compact package
- LC/APC connectors
- Mode-group selective excitation of 6 modes: LP01, LP11a, LP11b, LP21a, LP21b, LP02
- O band and C+L band operation
- IL with typical 5.5dB, Max. 7dB
- High mode extinction ratios
- Supports 6-channel 10G/25G bit rate
- Voltage 5V input

Application

- Mode-division multiplexing
- Multi-parameter distributed fibre sensing
